WHAT ARE THE PLANS OF FRENCH TRAVELERS FOR SPRING AND SUMMER 2021?
What are the plans of French travelers for spring and summer 2021?

According to the 2019 United Nations World Tourism Organization’s (UNWTO) tourism ranking, France is the most visited country in the world, thanks to its unique combination of nature, history, food and wine. Millions of travelers come to France every year attracted by its unique culture and a way of life. In our report we want to focus where French travelers prefer to travel.

The pandemic has changed the way we all travel and plan our vacation. However, as countries worldwide roll out COVID-19 vaccines there is hope that travel will resume soon in a safe and responsible way. Anticipating travel revival, we analyzed air travel search data from France made in January 2021 and found out:

- When and where French travelers are planning to go in spring and summer
- What are the top destinations on their mind

Online air travel searches are indicators of interest and demand to a destination from a certain market and potentially a signal to focus your advertising activities there.
When and where are French travelers dreaming to go in spring and summer?

When are they planning to go on a trip?
More than a half of air travel searches made from France in January 2021 was for travel in springtime. 31% of travelers are searching for summer trips followed by 12% that are making longer term plans. It shows that the French market has a good potential for different types of campaigns, especially with a short-term focus, to grow this demand further.

Where are they heading?
A vast majority of French travelers is searching for a trip outside of Europe followed by 29% that prefers travel within Europe. 11% of them consider domestic air travel for this spring and summer, which shows that this market has some potential for local Destination Marketing Organizations (DMOs) as well.

The French market would be an ideal target for non-European destinations that want to bring visitors in spring and summer. A conversion-oriented advertising campaign can become a great way to attract French travelers to these destinations. Local DMOs can also benefit from domestic travel promotion.
